

**Please join Georgetown Law and Vossius & Partner
for a program covering
Trends in German and European Patent Litigation**

**Tuesday, March 26, 2019
3-5:30 p.m.
*Reception to follow***

Georgetown University Law Center
600 New Jersey Avenue NW
Washington, DC 20001
Gewirz Building, 12th Floor

The event provides the opportunity to discuss emerging and important topics of German and European patent litigation with experienced German patent litigators.

The first discussion will highlight key issues in German and European patent litigation from an international case strategy perspective. Given the ongoing uncertainties around Brexit, we will consider scenarios including the Unified Patent Court as well as those without it.

The second discussion will focus on other current issues in the transatlantic patent litigation landscape, such as preliminary injunctions, FRAND, maintaining confidentiality in German and European proceedings and forum shopping.

Reception to follow the event.
